A SLENDER THREAD OF HOPE

Which Seems to be Growing
Into a Life Line.

An Unexpected Change For the Better
in Judge Truesdale's Condition—Physicians Hopeful—Arrival
of His Wife.

Chief Justice Truesdale's life, which on Saturday night seemed to have all but gone, was found hanging on a very slender thread twenty-four hours later. By yesterday morning the thread had gained in apparent strength and thickness and at a late hour last night his physicians and friends were hopeful, though not confident. Dr. Goodwin, one of his physicians, speaking of the case last night, said: "We are satisfied with the progress he is making. There is hope as long as he possesses a reasonable degree of vitality."

Before noon the judge had regained power of articulation and was able to recognize persons in the sick room and address them. He could also remove his handkerchief from the pocket of his gown, wipe his mouth and put the handkerchief back again. This was more than his friends had ever expected he would be able to do. Whether the favorable symptoms are indicative of recovery may not be known for days.

On Sunday morning Mr. S. H. R. Robinson, who was in charge of the sick room, desired of the attending and consulting physicians that other physicians might be called into consultation. He presented a list on which were the names of both regular and homeopaths. The physicians in attendance replied that while they believed nothing was to be gained by further consultation, they would offer no objection to the admission of regular physicians. They would decline, though, to consult with the homeopaths. Mr. Robinson was insistent and the physicians withdrew. Drs. Belden and Goodwin then took charge of the case. A telegram was sent to Dr. George Goodfellow. He was finally located at Nogales and through President F. M. Murphy of the S. F. P. & P. an arrangement was made with Superintendent Randolph to send a special train to bring him to Phoenix. It is expected that he will reach here this morning.

The wife of Judge Truesdale, accompanied by her two children and her brother, Mr. Langdon, arrived from Minneapolis at 11 o'clock last night on a special ordered by President Murphy from Ash Fork. Forty minutes was gained over the schedule time from Ash Fork. The regular train, however, would not arrive until 4 o'clock this morning.

Mrs. Truesdale with her children and other relatives was at once taken to the sick room.

Vice-President W. H. Truesdale, general manager of the Rock Island route, who left Rock Island on Saturday afternoon, was at La Junta yesterday morning. He telegraphed from there that he would be at Flagstaff this morning and directed dispatches for him to be sent there in care of train No. 1. He will probably arrive in the city some time this afternoon.

PERSONAL MENTION.

Hon. N. O. Murphy and Mr. Frederick W. Morris, Jr., arrived on a special from Castle Creek hot springs last night.

Mrs. Frank Bissick stopped over Sunday with the family of G. D. Gray on her way home to Payson, after a visit of a few weeks in California.

A party consisting of Hon. R. A. F. Penrose, Messrs. Spencer Penrose, D. M. Barringer and John Brockman, all connected with the Pearce mine, arrived in the city yesterday. They

will remain until the latter part of the week.

Mr. G. Van Daren, a prominent citizen of Jerome, arrived in town yesterday morning on his way home from a visit to his former home in Missouri and through Oklahoma and Texas. This was Mr. Van Daren's first trip east since he came to Arizona thirty-four years ago. The country through which he traveled is in a very prosperous condition and money seems plenty, but he says he saw nothing that impressed him so favorably as what he can see every day in Arizona.

TEMPE NEWS.

The Movements of Many People on the South Side.

Tempe, Ariz., Oct. 18.—(Special Correspondence of The Republican).—Very much of the beauty of Tempe is fast fading away. But to know that it will return after the week's vacation is a very sweet consolation.

Dr. A. J. Scroggs is putting a telephone in his office and in his residence.

E. A. Murphy bought four horses, a harness and buckboard of John Enright today.

A. J. Peters will ship a car of hay to the Pearce mine tonight. Two hundred and fifty dollars forfeit money has just been deposited as a guarantee that the race for December 23 will take place.

The following advertised letters are in the postoffice: Theodore Carson, Frank Lindmeyer, Fairy Thompson, Mrs. Lizzy White, Charles Perkins, Dolores Castro, Juana Gonzales, and Jesus Santa Cruz, two.

Since Marshal Compton nailed down the headgate of the town ditch little curls of blue smoke have been rising in a few places. The city ordinance provides that until a man pays his \$1.50 water tax he shall not receive any water. So now, although the marshal has long since raised the headgate, he has begun to raise the people. Three arrests for violating the ordinance are reported so far.

John J. Hodnett received his commission as postmaster today from Washington. He will take the office the first of the month.

J. H. Barnett was in town from Mesa this morning.

J. W. Woolf took the train last night for Mexico.

Judge Woy of Mesa was in town today.

C. F. Richards of the Office cafe, who went north to look for a business opening, returned home not much encouraged.

Beone Lewis of the Little Jesse mine is home to see his little granddaughter.

P. B. McCabe has returned from his California trip.

There are quite a number of cattlemen in town today, among whom are George P. Thornton of Prescott, who is looking after his 600 head, and Mr. Mills, buyer for a California firm.

While chopping off the top of a tree this morning Johnnie Powers received some very serious injuries. He was standing on a ladder and as the top came down it knocked the ladder from under him, throwing him to the ground and breaking his shoulder and collar bones.

WINDOW GLASS TRUST.

Thirty Million Dollars Will Represent the Capital of the Octopus.

Pittsburg, Oct. 18.—The organization of the greatest combination of window glass manufacturers ever formed in this country was completed at Camden, N. J., today. It was named the American Window Glass company and is composed of all the factories of the country except half a dozen small concerns. The capital stock was fixed at \$200,000, but the actual capital represented in the combination aggregates nearly \$30,000,000.

James M. Chambers of this city was elected president, and Pittsburg was chosen as the general selling agency.

WARSHIPS' WINTER CRUISE.

North Atlantic Squadron Will Be Kept Away From Cuba.

New York, Oct. 18.—A Washington special to the Herald says: The administration has practically determined to keep the north Atlantic squadron away from the gulf during the coming winter. While no orders have been issued, it is generally understood that Secretary Long will follow the course pursued by his predecessor and keep the ships away from Cuba. This means that during the cold season the headquarters of the squadron will be at Fort Monroe, and their evolutions will be held on the southern drill grounds, just outside of the cape. The intention to keep the ships in the northern waters is due, it is understood, to the desire to refrain from giving any evidence of a purpose to intimidate Spain.

SNOWING IN IDAHO.

Wintry Weather in the Southeastern Part of the State.

Pocatello, Ida., Oct. 18.—The first snow of the season commenced falling here about 2 o'clock today, and will probably continue till morning.

The same conditions prevail throughout the entire southeastern part of the state. It is feared that much damage will be done to grain.

A DARING VENTURE.

An Englishman to Cross the Ocean in an Eight-Foot Craft.

New York, Oct. 18.—A London cable dispatch to the Sun says: William Oldham of Nottingham proposes to cross the Atlantic in a steel boat ninety-nine inches long, twenty-six inches beam, and forty-two inches deep. It will be propelled by a screw driven by a bicycle-like arrangement.

A sort of hood that can be closed in rough weather will completely protect the occupant. The boat will be provisioned for fifty days, in which time Oldham expects to reach New York. He essayed to start from Liverpool Saturday, but a defect compelled him to delay his departure for a week.

The popular rendezvous is at Wakefield's pharmacy, the coolest room in town.
